The Govt's memo & the communications are kept in the connected with the case, 7 9 97

Forwarding for the orders of Govt, printed copies of the Proceedings of a meeting of the Managing Committee of the Maharanis Girls School, Mysore

The Govt. under review Committees proposals all enough, but the question is whether these Girls must deserve to be come literally dealt with in being given the Rupee scholarship of Rs 30 each offered by Govt. as I said in my note of 24/4/97 to which who hoped some graduation than there, were appointed teachers on 50 Rs each. These Girls deserve something better the Committees proposal is that they be given a scholarship of 50 Rs each to enable them to study for the B A Exam. What if they don't wish to study they be appointed teachers on 100 Rs each. The guarantee that as teachers they will get 100 Rs each if they choose to pass Govt. & as far as Rs 75, is also asked for. more favourable orders in that already hoped it was full deserved. So about the Girls at once as they are present. Then question of the Committee do not now arise

Inspector General of Education in Mysore,

To

The Secretary to the Government of Mysore
in the General and Revenue Deptt.
Bangalore

SIR,

I have the honour at the request of the Honorary Secretary Maharanis Girls' School to forward for the orders of Government two printed copies of the proceedings of a meeting of the Managing Committee of the school held on the 12th June 1897, also a copy of letter dated 1st June 1897 from the Lady Superintendent to the President of the Committee which is referred to in the First Resolution I have nothing to add to the facts and views stated in my letter No 8093/371 dated 10th April 1897

3 Maharam School
1st June 1897

Ewtk 32 a

Dear Sir,

I enclose the docket received fro the Inspector General of Education conveying the orders of Government respecting the Resolutions passed by the Committee on the 27th February

The girls are not willing, as far as I am able to understand, to continue their studies for the F A on a scholarship of Rs 30 They feel that in three years time, when the number of Upper Secondary and Matriculation students is greatly increased, their position will not be as good as it is now They wish to be appointed as teachers at once Government has not referred to Resolutions I and III It would be best, in any case, to fix the pay of a Matriculate and of an F. A and to guarantee appointments. This would give the girls confidence and encourage them to study.

Yours sincerely
(Signed) K Vokins

5 M R Ry Dharmadhikari Ramasastriar
6 Kutti Narasimha sastriar
7 D Sitaram Rao Esq (*Secretary*)

READ—Docket No 9411—974 dated 25th May 1897, from the Inspector General of Education in Mysore and Proceedings of the Meeting held on Saturday the 27th February 1897

Resolution on Proposition No I—

The Committee observe that Government have apparently misunderstood the object of the recommendation made in Resolution No I This and Resolution III contain the principal proposals of the Committee It is immaterial whether the students are granted leave or not The Committee were anxious that the students should get a scholarship of Rs 50 each and should be guaranteed appointments in the Maharani School on Rs 100 each until they pass their I A and after passing the F A that they should be guaranteed appointments on Rs 150

The Committee feel that there is nothing unreasonable in these proposals The matter has only to be properly placed before Government for them to give their sanction to it

The passing of three Hindu young ladies of the status of the students whose case is under consideration is an event unprecedented in the history of female education in Southern India The significance of this fact and what it implies can be realized only by those who know the difficulties in the way of inducing Hindu girls first to attend schools and next to continue their studies after a certain age The watchful care and continued solicitude with which the early pioneers of female education in Mysore guided its progress could alone have achieved the results which are a source of pride and gratification to all well wishers of India and its social progress The Government can readily understand how this apparently small achievement is fraught with far reaching possibilities as regards social reform In the school itself the passing of the Matriculation standard by high class Hindu ladies has evoked the great est enthusiasm and its effect on the girls in the preparatory classes was very marked The Committee are in hopes that as the years go by more and more of the girls of the higher classes will continue up to the Matriculation or even higher standards It is only proper that the girls who have had the merit of passing the Matriculation test first should receive every encouragement Rs 50 to each is not a high sum nor is a guarantee of an appointment on Rs 100 too much for them considering the sacrifices they have made and the encouragement such a good salary will hold out to others to follow their example The girls are anxious

to be guaranteed an appointment, as possibly in coming years, there may be other applicants in the field and they may not start so advantageously as now The students are moreover too poor to continue their studies up to the F A without this help and promise of appointment The Committee wish to assure Government that they would not have made this special recommendation but for exceptional causes The whole case was thoroughly discussed by the various sections and interests represented in the Committee and the recommendation was the outcome of their mature deliberation The Committee do not wish to burden Government with greater financial charges than are justified by the demands of the cases under consideration

The Committee would invite the attention of Government to copy of letter dated 1st June 1897 from the Lady Superintendent to the President written immediately on receipt of the docket of the Inspector General of Education and this will show in what spirit the Government orders were received in the school

Resolution on Proposition No II—

The Committee have considered the report of Jayarayachar deputed by the Lady Superintendent to examine the home students and report on the work of the teachers The report discloses many irregularities and short comings on the part of the teachers The system has not been working satisfactorily It may be necessary to dispense with some of the teachers and redistribute the work among the others and secure better guarantees for good work being shown by the teachers But before proceeding to take further steps, it is resolved that a nominal roll of the students be prepared in the form prescribed at the meeting and submitted to the Lady Superintendent every week The students will attend at the end of every month at a place and time appointed by the Lady Superintendent and she will by putting a few questions satisfy herself that they are *bona fide* students and are earnest in their studies

At the end of three months she will hold a regular examination and submit a report to the Committee as to how far the system has been a success and what modification is required both as regards the number and description of teachers that should be retained, the system of teaching, the subjects that should be taught, and whether instruction should be imparted at selected centres at specified times or at the homes of the students as now
